RE: REQUEST FOR INFORMATION FROM SENATOR MURKOWSKI

Senator Murkowski would like to receive a bibliography of any finished intelligence product which addresses the following subjects:

- the potential impact of changes in the world oil market on the national interests of the U.S. or its allies (particularly from the perspective of the potential for the U.S. to once again become highly dependent on imported, especially Mideast, oil); and,
- the potential impact of U.S. dependence on foreign supplies of strategic minerals on U.S., particularly security, interests.

If the Intelligence Community is in the process of investigating either of these two issues, please provide information concerning such efforts (e.g. the status of the review, the scope of the analysis, and any sense of the findings that may be available).

Please provide a response to this request by Wednesday, April 9th.
